TO:

to whom it May concern

We, Tordil Corporation S.A., a company based in Uruguay, are legal representatives of LLC RN TUAPSE REFINERY, for more than 5 years.

**A malicious complaint made, after receiving the threat, by a group of intermediaries with whom we had several operations in process but which, As a result of discussions, rude words and even insults, we decided to stop serving them.**

This was the reason for the complaint by this group to this site which, as confirmed to us by the refinery, **IS FALSE** and to which we should not pay attention, but we should communicate this fact to our contacts, commercial intermediaries, banks that intervene in operations, among others, so that they are informed through our company of such a problem.

**They not only try to scam Tordil Corp. but also Tuapse Refinery and BankVision US Financial Corp, who has no participation in everything related to operational management, only in the administration and management of funds resulting from commercial operations between Tordil Corp., Tuapse Refinery and the buyers.**

**This misinformation has created big problems for us, our customers and business partners.**

The website ( <https://www.fuelscamalert.com>, ) has been disclosing information without being able to prove it, and this is being very damaging to our history, to our business partners, bank, etc.

We have already asked them, by email, to remove false information, but we do not know who the legal representative is, the physical address, the telephone number, in short, no information so that we can formally take the corresponding measures through our legal department.

We ask everyone to ignore this malicious link.

Yours sincerely
